## **RARE NEW HEMEROCALLIS**

Hemerocallis have set a new craze to the flower collector. These lilies have undergone a period of development in the past few years which makes it quite difficult to keep abreast with the best of the newest. Astounding new colors and combination of colors have been created by the great efforts of hybridizers, causing much excitement in the great flower world. Our Hemerocallis consists of the finest up-to-date lily varieties that can be had. These lilies can be grown in any part of the United States. Hardy and most reliable bloomers on a very distinct color range. I have grown all sorts of perennials in the past twenty-five years and find the Hemerocallis the supreme of perennials and the king of all plants.

## **CULTURE**

Hemerocallis are very easily grown without any fuss or bother, but like any other flower if one wants fine giant blooms it is best to grow them in a well drained soil to which has been added plenty of Oak Leaf Mold, Cow Manure or Dry Cow Manure and a little Bone-Meal. Do not use any strong fertilizers for this may burn the fleshy roots.

Terms: Cash With Order. All orders \$3.00 and over shipped postpaid anywhere in the United States. On orders less than \$3.00 add 25 cents postage and handling. Be sure to state your express office if different from your post office.

We Guarantee all plants to be true to name, free from insect pest and disease. All our plants are state inspected. You are invited to join the Hemerocallis Society. Send \$3.00 Dues to THE HEMEROCALLIS SOCIETY, Secretary c/o The K. C. Life Ins. Co., Box 139, Kansas City 10, Missouri.
